

HATE AT SCHOOL

2018 TEACHER COMMENTS

These comments came in response to questions asked in a questionnaire asking educators whether they had seen or heard about hate and bias incidents in their schools during the fall 2018 semester. The survey was conducted by Teaching Tolerance, a project of the Southern Poverty Law Center, from December 5 to December 17, 2018.

A link to the survey was sent to educators who subscribe to the Teaching Tolerance newsletter and also shared on Teaching Tolerance social media sites. It was open to any educator who wanted to participate. Several other groups, including the NEA, also shared the survey link with their social media audiences.

Respondents were asked a series of questions, each of which asked if they had seen or heard about a particular form of hate or bias. Those who answered “yes” were invited to describe the incidents; not all did. These are the questions that generated the comments:

Q. Have you seen or heard about incidents of vandalism or graffiti involving **hate symbols or slurs** this school year? Yes ... [page 2](#)

Q. Have you seen or heard about harassment, threats, slurs or name-calling **directed at immigrants** in your school this school year? [page 23](#)

Q. Have you seen or heard about harassment, threats, slurs or name-calling **directed at Muslims** in your school this school year? [page 37](#)

Q. Have you seen or heard about harassment, threats, slurs or name-calling **based on race** in your school this school year? [page 42](#)

Q. Have you seen or heard about harassment, threats, slurs or name-calling **based on gender or sexual orientation** at your school this school year? [page 63](#)

Q. Have you seen or heard about **anti-Semitic harassment**, threats, slurs or name-calling at your school this school year? [page 83](#)

Q. Have you seen or heard about the display of **Confederate flags** on school property this school year? [page 92](#)

Q. Have you seen or heard about harassment, threats, slurs or name-calling **based on politics** in your school this school year? [page 99](#)

In the course of a week, we received responses from over 2,700 educators working in K-12 schools in the United States. Their comments have been lightly edited for spelling, except in cases where they contained personally identifiable information, in which case that information has been removed. Some comments answer more than one question; in that case they’ve been repeated.

Inappropriate words in the bathroom stalls

Our campus is a public park outside of school hours, and students have reported finding graffiti of swastikas, genitalia and curse words- usually on the first day back after a long break. To our knowledge, it is not our students doing this, but other community members.

There were swastikas drawn on the bathroom wall on two occasions.

[There were] separate incidents where white students called black students apes and/or monkeys.

Additionally, those students will call white students "gay/queer/homo" because they are white.

Swastikas, use of slurs against Jewish students and African American students. Openly waving Confederate flags and antagonizing African American students from other schools who compete in sports against us. Students wanted to create a GSA (Gay Straight Alliance) club - but met with resistance from administration. The HS principal rarely responded to emails and questions, was vague in what needed to be done to meet the criteria to start a new club, and only scheduled a meeting with the student leaders after one of them contacted the ACLU. ... He required the students to create a “curriculum” (although we have other clubs that would question that need - Anime/Manga, for example) and then after providing the materials and lesson plans for the first three club meetings, waited a week to respond to grant final approval. He told a teacher interested in sponsoring it last year that “we don’t have a need for that type of club here.” In 4 days’ time, we compiled a roster of over 60 interested students for our first meeting held last week. We promoted our club using posters in the hallway (that he approved) - but as soon as they went up, there were 2 social media posts maligning our club and tearing up our posters - and to our knowledge, the student [who tore up the posters] was not addressed by administration, despite our report of the situation. We’ve also had some of our posters torn down - and witnessed - yet again, to our knowledge, there were no consequences for that vandalism.

I stand at my door in between classes every day. I have heard several students, mostly of white and/or Hispanic descent use all forms of the n-word as they walk by. We have a student group at our school that fights racism, and while this was not hate speech, an anonymous flyer was posted during the day that we host our school’s Open House. The flyer said our school has “zero tolerance for freedom of speech, white people and way more.” It also said that our racial summit which have been created to provide safe spaces for students of various identities, our Latinx, Black, LGBTQ+, and IAmAsian Summits “furthered racial segregation.” While this was an isolated incident, I think this highlights the ways in which there seems to be fatigue around how our community is addressing white supremacy, thus this problematic flyer. There are other incidents, but our school does a good job of

ensuring that they don’t make it into the news.

I was covering a class for another teacher, and I witnessed a white student draw swastikas on the skin and paper of the Latino student next to him. The Latino student was very angry but tried not to cause trouble. I had to intervene. The white student was expelled. Our school took action, but I am still seeing it. Our school had to stop students from wearing Confederate flag clothing accessories and flying the flags from their trucks. They have also dressed up as ICE/immigration officers for Halloween and chased after Latino students in the past couple years. I didn't really see this in my first half of years here, but since the inauguration of Trump and governmental acceptance of hate speech, I have seen many horrific events and heard many horror stories from other teachers and students right here on our campus. Some students also confide in me that they do not know what to do about the hate their parents and family members show at home, and that is where I feel like I need help—how to be a resource for those students who want to help educate their families and have proactive discussions instead of arguments.

We had a shouting match last spring between students respectfully gathered to honor those killed in school shootings with students who support gun rights. Then they started yelling racial slurs. We've also had gang graffiti drawn in bathrooms, on walls, etc.

"Cracker" "N****"

Two students have reported being called [n-word] at school.

An African-American student in my class was called a monkey. After discussion, it was discovered that he had been calling him that for a while and actually superimposed a picture of the student's face onto a picture of a monkey, showed it to the student, and said, "this is you." A month later, another student in my class said to the same victim, "You

Name calling, racial slurs

Name calling towards the Latino students based on the assumption of being undocumented

Most of our staff are very tolerant. But there are times when they use name-calling as a “joke” - for example, calling white people “honkies” or “crackers,” using the n-word, or feeding stereotypes.

Most students use all forms of n-word in the cafeteria, hallways, and classrooms and staff and administration do nothing

Students will say “stupid Jew” to a class even though no one is specifically targeted. It is used as a way to name call.

Student wearing

Students who drive have confederate stickers and flags on their vehicles. One vehicle has an over-sized flag they display

The incident was minor. One of my student wears a sweatshirt with a confederate flag on the back. Her notebook cover is the confederate flag. A black student recently told me that every time he sees it, he feels internal rage. That rage is the incident I am reporting. Minor, but very real to him.

A student installed a giant Confederate flag in the back of his truck to fly as he drove. Students reported him and his intimidation tactics to the administrators.

Teachers and students have the Confederate flag either tattooed on their body or with their possessions. Students with trucks and the Confederate flag drive by the front of the school.

Shirts / lic plates

HAVE YOU SEEN OR HEARD ABOUT THE DISPLAY OF CONFEDERATE FLAGS ON SCHOOL PROPERTY THIS SCHOOL YEAR?

A student's background on their computer.

Confederate stickers are on a few of the student vehicles. A student had an actual flag in the back of his truck.

Students flew Confederate flags from pickup trucks during an outdoor celebration

On vehicles and clothing

Student carries Confederate Flag symbol around

Students bring Confederate flags and display them on their vehicles in the parking lot. They often line their cars up together to make a larger display. Often, students attend classes wearing Confederate flags (i.e. hoodies, sweatshirts, etc.). Our administration has put a gag order on the teachers, disallowing us to address the issue unless it happens to be directly tied to our curriculum.

High school students with Confederate flag stickers on their vehicles in the school parking lot

In the history class

A student wanted to display the flag in the schools commons area and had a couple of flags attached to the bed of their truck.

I have seen a student wearing a Confederate flag sweatshirt.

Flags being flown from student trucks

Displayed on a belt.

Students have had flags on their trucks or worn Confederate flag emblazoned clothing.

Students are able to wear clothing or items with the flag. They appear on student vehicles parked on school property.

A truck at the Vo-Tech has the flag in its back window and a student with a belt buckle. The reaction has not been huge but has caused concern and conversation.

Student with confederate flag phone case and also on back window of truck

A couple of students have the Confederate flag as their Google profile picture.

On a history mural with many other parts of history there is a confederate flag. It was discussed if it should be removed and the decision was to keep it as part of our history.

Some students on "hat day" wear hats with the confederate flag on them. Some of the cars that pull through the car-rider pick up line have confederate flag vanity plates on the front.

Students using the flag as desk-top backgrounds, t-shirts, hats

There were a few brought to school last year when we raised the Black Lives Matter Flag, this year there were a few seen on cars in the parking lot. A lot of times we see the flag used on student's computers.

On the day we raised the Black Lives Matter flag, a student was flying the Confederate Flag on a school bus parked in front of our school.

Flags were on cars and trucks in the parking lot.

Students displaying the flag on their pickup truck or wearing clothing with the flag on the item.

Have you seen or heard about harassment, threats, slurs or name-calling **based on politics** in your school this school year?

Build the wall, you're a liar, immigrants are dirty and steal jobs. The N word.

Students chanted 'Build the wall' when they did not even understand what they were chanting.

I have heard of teachers blatantly trashing the president in front of students. They are very hypocritical when teaching tolerance.

'Brown trash' to Hispanic students that immigrated from Mexico.

Build the wall comment was made to Mexican American student

Students of color (any nationality) being told to go back over the wall; go back from where they came from; racial slurs (use of N word) ; mimicking of sounds intended to be a language at students from other countries.

There has been a 25% increase in Harassment, Intimidation and Bullying reports

There are some comments repeating what the current president is saying.

Students often argued over pro- or anti-Trump issues, immigration, and race in general.

"Trump- supporter," "Democrat," "Idiot," "Pres-bes," "Make America Shit Again (masa)."

Students repeating what they hear the president say about ethnic groups.

Conversation about Trump and building the wall to keep brown people out being a good thing.

Brown people who shouldn't be here need to be sent back, etc.

Students have teased others about being Trump supporters.

Republican distressed by those receiving welfare

Partisan split of students of all ages; even as young as Kindergarten children saying, "yay Trump" or "Trump sucks" based on how their parents feel.

ANTI TRUMP comments that upset some supporters

One incident, it was regarding Trump's policy of deporting all illegal aliens; the incident occurred on a school bus, two white students were telling a Puerto Rican student that he was going to be deported and they kept bothering and mocking him.

Specific statements about building a wall.

Pretty mild. Some students have expressed anger at Pres. Trump. Others have discussed building a wall.

Our students will use "Trump" as means of calling a name.

Trump bashing...

Comments like, "Build the wall..." "Trump doesn't like Mexicans."

I have heard language used by the parents during conferences, meetings, and in passing

Many of my students have made negative comments about the President and his poor behavior, while other students and their families defend

HAVE YOU SEEN OR HEARD ABOUT HARASSMENT, THREATS, SLURS OR NAME-CALLING BASED ON POLITICS IN YOUR SCHOOL THIS SCHOOL YEAR?

Mr. Trump. In my 20 years of teaching I have never heard students in grades 1-5 so politically divided and willing to discuss their views.

Constant barrage of students thinking freedom of speech means you can say anything without being held accountable with consequences of the speech used.

Students have used 'Trump' as a way to scare other students.

Student slapped a student's bottom and said that Trump says it is okay

Students repeat what parents say... like "immigrants need to go home", or "Spanish people are not Americans", or anything pro-trump said seems to upset many of our students.

Pro-trump students putting down Latino students

Along the lines of "I bet your family voted for Trump!" (used as an insult)

A lot of 'go back to where you came from' and 'build the wall' as well as 'snowflake' have been heard from older students.

1. Students using more racial slurs: cracker, [n-word], ape, colored 2. Students being told to go back to where they came from 3. Students being told a wall is going to be built to keep them and their people out

Multiple students making comments about trump and the wall, or just his name in general upsets many of the kids so others will bring it up to trigger kids.

Following the type of responses our president gives, students feel the same entitlement to just blurt out what they are thinking

Build a wall. Go back where you came from. You're gonna get deported

Trump is going to build a wall to keep you out.

Students are using Donald Trump as an insult.

We also have students who talk about building a wall and not letting another students in. Students tell others they will be sent away.

Some disagreement about the presidency and immigration laws have been discussed with students. Some students use language such as "you're an illegal" "you don't even belong here" and other hateful comments have occurred when talking about social injustices from time to time with students saying things like, "white privilege" "it's because you're black/white/Hispanic", etc.

Because we are a [religious] school our [religious organization] sides with the Republican party. Basically, the rest are ostracized

Students use "Donald Trump" as an insult.

Name-calling

Issues with students discussing a wall with students who are immigrants

The border wall is an issue and a couple students have said things like "You're going to get sent back - we don't need you here"

"Trump is an idiot"-type remarks; the president hates us because we're brown.

Name-calling of Trump

Students have used the name Trump to taunt others. At times it is telling kids that Trump is going send them home. Other times students have called other kids Trump as a put down.

Kids are told to go back to their countries all of the time. "Go back to China" "Go back to India" "We wish there were a wall"

Anti-Trump. Assuming some teachers are pro-Trump.

Students telling other students "we are going to build a wall"

Students bashing Trump and Trump supporters. Calling them white supremacists.

**HAVE YOU SEEN OR HEARD ABOUT HARASSMENT, THREATS, SLURS OR NAME-CALLING
BASED ON POLITICS IN YOUR SCHOOL THIS SCHOOL YEAR?**

“Trump will deport you.”

Trump lover, racist, cracker,

Students during discussions calling each other rude names like stupid while talking politics.

Escalated name calling and hateful language

Students find it acceptable to bash the President and talk negatively.

A six-year-old chanted ‘build the wall!’ A fifth grader called another fifth grader ‘fucking Trump.’

If there is mention of Trump on campus, it almost never goes with a comment that he’s racist and angry words usually follow.

Immigrant students were told to go back home or that the wall Trump wants to build is a good thing to keep them out.

Most are kids repeating what they’ve heard from Donald Trump and extremist that support him.

Talking about border wall and students getting made

Many students angry over Trump as president. A student tried to defend Trump and was bullied and ridiculed. This happens with staff too.

Students express their hatred of the current president

Trump is stupid he should die.
[Republican governor] is a loser.

“Trump-er” “Illegal” “Mexi-trash”

There have been comments made about the wall will keep you out and the comment go back to Africa

Talking about the wall and how it will keep your families out.

Students use the president’s name as a slur towards other students.

Trump hate such as in reference to “Racist Trump hates Mexicans and is sending them to Mexico” or just the general topic of race; everything is labeled “racist” in this society and the kids are hyper-aware of it and misuse the term racism frequently

You’re a bully just like Pres Trump

There is a general division based on politics. I have heard teachers degrade other teachers based on their political belief

Some of the students of color ganged up on a small groups of white students due to one of the white students parents having a Trump bumper sticker

Social media posts that have spilled over into the staff lounge.

Having students talking about building ‘the wall’ and for students to go back from where they came from.

My students (most of which are in grades 4-6 and have learning disabilities) make a lot of ‘jokes’ about trump. They ask about trump at least once a week. Multiple (idk, maybe 3-5?) students have come to me crying during recess because someone else was bullying them (‘they said I like Trump but I don’t!!!’)

Lots of Trump related comments, building walls, “Beaner,” etc. Student called himself “America’s Hitler”

Student chanting “Trump.’ Make America great hat. Student not participating in diversity day activities as a protest.

As a Social Studies teacher, I feel unable to teach current events around government issues due to the political tone in our nation. When it comes up, it is divisive among the students.

Students have said “build the wall”

Wearing of Trump shirts to intimidate others

Generally, students make comments about ‘liberals’ and I have heard students say ‘libtards.’

HAVE YOU SEEN OR HEARD ABOUT HARASSMENT, THREATS, SLURS OR NAME-CALLING BASED ON POLITICS IN YOUR SCHOOL THIS SCHOOL YEAR?

I have heard students repeating many things that Trump says

student behavior issues, unrest between students, worsening apathy toward school in general.

Anti-Trump words

Students have made negative comments about the president and about both republicans and democrats.

Hispanic students targeted, students repeating phrases our president has said. Students singing “d-d-d-d-Dora, d-d-d-d-deported”

Multiple cases of students using the current president as a tool to hurt others.

Kids calling Muslim students terrorists, “dem-tards”, “libtards” is thrown around, jokes are made about immigration status, deportation, and walls.

I had a student exclaim, “I hope Donald Trump builds a wall so you’ll have to go back to where you belong,” to another student.

I feel sorry for any student who voices opposition to Donald Trump. They are persecuted by their peers.

Students are generally unable to separate someone’s opinion from the person themselves, so political disagreements sometimes turn into name calling like “stupid” or “ridiculous”—that sort of thing.

References to comments made by our current president, repeated by students as a “joke.”

Kids posted pics on Instagram with #whitepower and #maga

Anti-Trump statements, statements against “bleeding heart liberals”

Name-calling based on political alliances.

We have a small number of student who support President Trump. We live in a predominately liberal community and some students have excluded and teased the students who support Trump.

Trying to build walls and other Trump related rhetoric

Many students speak out and verbally argue with other students about current political views. Build a wall, anti-Clinton saying lock her up. America first.

I do not think it was anything malicious... just students repeating name calling they heard on tv or at home

I have heard students reference immigration and refugees as being potentially bad or dangerous because of politics.

Build the wall comments, derogatory statements about Mexicans.

It used to be worse when there was a presidential election. Now it happens in the off-year elections also. The whole atmosphere becomes more negative, more name calling.

Kids have said, “Go Trump! Get Out”. “My dad said brown kids are lazy and I shouldn’t talk to you.” “I hate black people” “You are retarded, why don’t you kill yourself?” “You’re a raper”

“Build the wall” shouted by students at a school event.

Both sides very polarized with midterm elections. Students who disagree with the other side tend to harass; name call the other side.

Students chanted “Trump, my president”. Students verbalize desire for a wall

A certain student keeps using the word democrat like it’s a distasteful thing. He says things like; “you probably voted for Hillary” and “you democrats”

Kids have been verbally attacked but others because parents supported Trump

Just students teasing other students for their beliefs.

We have seen an increase in microaggressions,

HAVE YOU SEEN OR HEARD ABOUT HARASSMENT, THREATS, SLURS OR NAME-CALLING BASED ON POLITICS IN YOUR SCHOOL THIS SCHOOL YEAR?

I teach American History and we discuss current events frequently. The discussions over the last two years are much more difficult to facilitate. Students are quick to disagree with each other and discussions become heated much more quickly than they have in the past. And, I admit that I find it difficult myself to deal with the realities of talking about the current administration when students ask questions like, “Do women lie about sexual harassment?”

Students ridicule students from other countries.

Students quote Trump to justify treating immigrant students hatefully.

Just things like power to the president when in years didn't hear anything

Some students advocate building a wall. Some have used the N word.

Libtard, being called stupid for political views,

Every day we hear people speaking disrespectfully and acrimoniously about Trump and his administration. If our country is supposed to teach our students to respect the position of the presidency, the way news coverage speaks about the President and his administration, whoever holds that position, has to maintain a certain decorum and balanced reporting. That sort of biased, hateful, name calling, language is repeated everyday by students.

Hispanic students have been taunted about ‘the wall.’ Kids wear the MAGA hat and make a point of showing it to the Hispanic kids. Kids talk about how much they like trump in front of Hispanic students and talk ‘drug addicts and rapists.’

Students of color experience teasing by students regarding immigration status and ‘the wall.’

When studying Mesopotamia, some students chanted ‘Build a Wall.’ More students make jokes about not liking Trump and how he stands for hate.

Right wing/left wing arguments

Rumors and heat says about former presidential

family. Issues with Hispanic students being told they were going back to Mexico.

Have heard a student tell another that when Trump finishes with them they will be deported.

Using gay and faggot as insults, using negative terminology for political parties

Female students have been taunted about feminism and equal rights. Comments such as “the R in female is for rights,” or calling girls lesbians if they believe in equal rights. MAGA apparel being worn in school and students feeling unsafe or threatened by its presence in the classroom. Students chanting “build the wall” at students who appear to be not white. Students feel empowered to voice their opinions about other peoples’ lives (lgbtq, immigrant, new to the district, poor/homeless, democrat)

Trumpisms are used by both sides of issues.

“Go home” or “If you don't speak English, go home” Trump/Pence pictures hanging on wall when you walk into the building.

Students think it's funny to talk about Donald Trump. “Build the wall!”

Not wanting open borders or the people come in from the borders build the wall.

Debate got heated in a Family & Consumer Science class (FACS).

Since we live in Arizona, students speak often about the “wall” which leads to disparaging remarks about Trump. We also had a significant teacher walk-out last year, so students have spoken negatively about our Governor and his lack of support for education.

Students have expressed inappropriate hate or wishes toward our current President of the USA.

Student used some inappropriate language, when confronted he said his parents use that language all the time.

It's hard to be specific. None of it has been more serious than arguing in a classroom or hallway.

HAVE YOU SEEN OR HEARD ABOUT HARASSMENT, THREATS, SLURS OR NAME-CALLING BASED ON POLITICS IN YOUR SCHOOL THIS SCHOOL YEAR?

Students throwing opinions around and calling each other dumb for thinking the other way. A student did tell me of a teacher getting political in the classroom. He is very conservative and even prone to conspiracy theories. She was very upset and ended up in a debate with him.

One student called a black teddy bear, in response another student called a white Trump boy

Kids are anti-Trump

References to the President and racism. Referring to border and deportation

Students who do not like the president.

Area is heavily Democratic. Some students and parents who identify as Republican have reported that they do not feel safe to express themselves post 2016 election

Several comments about Trump.

Student chanting “TRUMP, TRUMP, TRUMP” when other students were expressing their feelings against certain policies or acts.

White male middle school students making comments about Trump “making America white again.”

Students have been called racist because they supported Trump, and have been called names and shunned

We have had incidents of a white student making comments and starting fights. His grandfather makes it clear his views on blacks in a very negative way. I’ve had more incidents of black versus Latino and had to intervene. The language barrier is affecting relationships. Some black students are negatively saying things to my students such as “go home” “you’re taking jobs” name calling, intimidation, following them in halls in large numbers, etc. We have initiated measures here to open communication on sides and discipline those offending. It has been a little better lately.

Teacher showed a video from NPR and student told the teacher that he was

“one of those Trump haters”

Most of my school students’ parents are active in state politics and government who are liberals in a state which is not. Ironically, the conservative students experience shaming for their beliefs. Students will laugh and ridicule their beliefs as “stupid”.

Liberal and Conservative both being used as pejoratives

Trump lover, he dislikes blacks and immigrants

White students have been referred to as “Trump lovers”

The incidents are not from the students, but the parents. Some parents are harassing teachers about not presenting Trump and his actions as positive; not representing both sides. As teachers we cannot in good consciences be held hostage by parents who are supporting Trump policies when in actuality, they are condoning racism, homophobia and shutting freedom of speech/press.

“Liberal teachers hate us.”

“Trump Lover/Hater”

We had an assignment in which we were talking about immigration. One student drew a pic of president Donald Trump with a hat that read ‘make America great,’ he was holding a sign that said, ‘if you see this you have permission to shoot.’ It was pointed at a character climbing over a wall.

Student used the word “Trump” as an insult towards a classmate

Students simply repeat what they have heard their parents say, without an understanding of the meaning or full intent.

Ever since the presidential election there has been more discussion of politics and harassment of non-Trump supporters. There has also been less tolerant language choices in the last two years despite PBIS.

HAVE YOU SEEN OR HEARD ABOUT HARASSMENT, THREATS, SLURS OR NAME-CALLING BASED ON POLITICS IN YOUR SCHOOL THIS SCHOOL YEAR?

Trump words being retold about immigrants and wall and kicking people out of country and separating families

Students shouted down a student who thought the President was doing a good job

More name-calling, put downs, etc...

Students were heard saying “Build the wall” along with “Make America Great Again” – Clearly influenced by Trump

Well in general, counseling has gone up since Trump was in office. I call this the “Trump effect.”

Students hate Trump and use his name as an insult

Students feel unsure and safe in society based on comments by the President

Rude talk - unkind

One student used racial slurs against another student, and made comments about “Trump being right that Mexicans should leave”

Students calling others illegal, talking about a wall & sending people “back where they came from”

Build the wall! Yelled by a student new to our school.

A Caucasian student reported he was upset when students called him “Orange” (in reference to Donald Trump).

African American male was arguing with his class and getting very heated. He: pro Trump, they: not at all. The word racist was used multiple times...towards him.

Students of color on a field trip at a museum in Washington, DC were called names and harassed by young adults wearing red “Make America Great” hats.

One student wanted to do their report on President Trump, so a few of the other students started calling them names. Based on the wall, and their families’ coming here without papers.

It is difficult to limit to one issue. Students routinely mention their politics and parents’ politics.

Students call those with whom they disagree names, like loser, commie, liberal. Frequently escalate the emotional level of conversations when they disagree with others.

I have one student who is very pro-Trump. I teach Spanish and the conversations about immigration do not go well. This student is inflexible, and others are laughing at things he says.

Heightened animosity and self-righteousness of alt-right parents influencing their students especially in light of hatred and disparaging remarks/divisiveness by the outrageous political administration. I have taught here over 20 years and there was always an underlying, festering racism/anti-Semitism/homophobia at this school. This beach community is considered a ‘sanctuary’ from nearby immigrant/African American communities. This attitude is mitigated somewhat by the diversity shown by the US Air Base nearby. Nevertheless, my Diversity/GSA/Pride Club/Animal Rights Club members have always had to fight for their dignity. Sometimes we make in-roads, other times, there is severe back lash as the economy becomes more uncertain for the regular working-class family. Although, the attitudes of rich and working-class whites in this community are really not so different concerning egregious racist/anti-semitic/misogynistic/homophobic manifestations within our school and community. We have more fundamentalist churches than shelters for victims of hate crimes or psychological concern for those affected. We have the highest suicide rate among our high students in the county.

“Destroy all libtards” written on school forum board. This is a frequent term here as are other anti-liberal, anti-democratic words

Comments made in class about “Merica” and about the immigration issues.

Some Trump comments and immigration comments.

Students seem to feel they have more freedom

HAVE YOU SEEN OR HEARD ABOUT HARASSMENT, THREATS, SLURS OR NAME-CALLING BASED ON POLITICS IN YOUR SCHOOL THIS SCHOOL YEAR?

to talk about race, sexual orientation and gender identity in a derogatory manner.

Political polarization has taken over our state and at times our school. Conservative students have no use for immigrants of any kind justifying positions by using hateful and offensive language used by pro Trump media and the President himself.

Nothing extreme but having a conversation on immigration and our current President deteriorated to name calling.

'Libtards', liberals spoken about in a derogatory way. The KKK being called a political group and not a hate group.

Students put down who are not white or who don't believe in the current political climate of our country.

Students who are self-proclaimed "Trump supporters" call other students "feminazis" or talk about "the cancer of feminism" or talk about "liberal" teachers at the school who won't listen to anything other than what they think. Other students have called conservative students a "dick" or said "I won't tolerate stupid."

Trump is going to send you back to Africa. No Mexicans, white power

It was worse around the mid-terms - but there is definitely more incidents of division since trump took office. They have an us against them mentality.

Lots about Mexicans needing to go home and building a wall

White students have called Black students the n word; Hispanic and Muslim students are told they are being deported; chants of "Build that wall"

Our student who was hanging the GSA posters posted a snapchat of another student who drove past him in the parking lot - and was flying a Trump flag in the back of his vehicle. The student reported to me that he used a few choice words to express his opposition to the GSA initiative and that group of students.

Many students have reported that other students used slurs, hate speech, and pro-Trump slogans to harass and intimidate them. Below I have copied some of the more jarring ones that stuck out. "I'll be here waiting for you when you finally see the light and choose God" - written on a student's desk while she was talking to the teacher. Writer drew under it a noose and a cross. "You fucking fag, I'll make sure you can't come back again." - said to a student in passing, the victim had just come out of the hospital from an attempt on their life. "You're not welcome here. I won't teach you" - a student teacher, who was backing a student wearing a MAGA hat. The student teacher sided with the hate comments (not documented) said to a different student.

Conservative students have been very aggressive, outside of teacher hearing.

Pro trump students vs anti trump students during [midterm] election

It's gotten better, but our school's twitter climate (student accounts) is quite racist. Also, a voter drive (and civil discourse surrounding it) was shut down by administration when one right-wing adult who also lives in the district threatened to deploy others to disrupt a levy referendum. It was a deliberate ploy to chill discussion of issues, and it worked.

Several students identify as "MAGA" supporters. They yell confrontational phrases such as, "Build the wall," regularly as a response to discussions, Hispanic students, and for no obvious reason, both in classrooms and hallways.

I was targeted by parents for being a liberal. They wanted to get me fired.

Hearing "build the wall" directed at students of Latino backgrounds

Students called out for being Trump supporters

A student called me as a "leftist, liberal, post-Modern Nazi."

Hostile comments about liberals are not

HAVE YOU SEEN OR HEARD ABOUT HARASSMENT, THREATS, SLURS OR NAME-CALLING BASED ON POLITICS IN YOUR SCHOOL THIS SCHOOL YEAR?

uncommon. Students are particularly concerned about gun rights and immigration. Some students get angry with students who see themselves as conservatives. In my classroom, I encourage civil discourse and ask students to attempt to understand the other person's point of view even if they do not agree.

Students with a conservative outlook and supportive of the President are outcast in our school

Students use "them" often. Anti-Black Lives Matter and anti-Mexican rhetoric are often supported with Trump politics.

"Libtards" "Snowflakes"

I have at least one student who thinks calling people "libtard snowflakes" is appropriate.

For the most part, I have only heard students calling other students Snowflakes, at least in my earshot.

Student violating dress code, shouted "trump" at me when addressed

In a world language class, some students called out to build that wall

Students wearing Make America Great Again hats and Build a Wall shirt.

Students use "Make America Great Again" as a way to shout down other opinions. LGBT students are called names. "Gay" is used as an adjective to describe something stupid.

A student did an art project about the need to "kick out all Mexicans" Two students on campus openly identify as Nazis, and one showed up at school in a full SS uniform.

A general lack of tolerance for people with different political views. An anti-right tendency

Trump student supporters making comments about immigrants, comments made about black students in section 8 housing and how it should all be demolished, use of the N word - infrequent but has happened

A student was presenting a Black Lives Matter project, and peers were snickering, saying it wasn't a real problem, making fun of the players for being Un-American, and using false equivalence arguments and Trumps "Make America Great Again" slogan to excuse their racist behavior.

Our school participated in mock election process this election season and student's voted on the four state initiatives that had MILLIONS of dollars from out of state campaign finance. As such there was a lot of political attention on our state. Students on both sides of the political spectrum were quite vitriolic and demonizing of their classmates who disagreed with them ideologically. Whether it was about gun safety, carbon tax or excise taxes on sugary beverages student categorizing and name-calling was often unkind.

Pro-Trump students trying to talk down immigration supporters, argumentative students

MAGA hat wearers call out people of color and call them names

It happens in the hallway... my students know better to act this way in my classroom!

"Lib-tard"

Digital and verb harassment. Usually right to left leaning students

Aggressive "pro-trump" rhetoric including terms like libtards.

Snowflake, "libtard"

Basic inability to conduct civil discourse without name calling

As we went into the midterm election and talked about "the caravan" of immigrants coming and the border patrol to stop them, students went into how the caravan was full of gang members and drug dealers.

It tends to be incidents that call someone names or degrades them due to their political interests, both conservative or liberal.

HAVE YOU SEEN OR HEARD ABOUT HARASSMENT, THREATS, SLURS OR NAME-CALLING BASED ON POLITICS IN YOUR SCHOOL THIS SCHOOL YEAR?

As indicated previously, topics discussed in classroom settings regarding politics have spilled to social media where students have been able to spread polarizing or hate filled messages in a more covert manner.

Libtards. Feminazi is said.

Very polarized.

Students calling other students "Libtards".

N-word, immigrant slurs related to maga

Widespread discrimination and derogatory language based on various identities: Political Gender Sexual orientation Socioeconomic Religion

A student referred to Senator Warren as "Pocahontas". A student in a presentation had an anti-Latino, pro-Trump and border wall meme. Students passed around a meme mocking President Obama's skin color.

Trump supporters vs everyone else. Trump supporters repeat the same things that Trump has said about immigrants being dangerous criminals or racists, and/or about women dangerously ruining men's lives with false accusations. Those against Trump will try to argue back with explanations of how those views are racist or sexist, which the Trump supporters view as slurs.

Students using the [n-word]. Student being called liberal bacteria.

Students often will explain that their behavior is because they saw that someone in higher power had done it.

Trumpies calling kids who are Democrats god-haters and baby killers

There is more subtle things that happen regularly-students rolling eyes or calling out that someone is either democrat/republican with a negative tone in voice, or shaming behind the back for holding a political opinion different than majority

It was a bigger problem during the presidential

campaign. I am not a supporter of the current president but if I was, I wouldn't feel I could let anyone know that. Statements are made in front of supporters or suspected supporters such as, "I wouldn't let (teacher's names) know you're a supporter because they've made it know they hate Trump supporters." This was said by another known hater of Trump supporters. Though I understand completely why one wouldn't agree with Trump, hate is or dislike of other based on their ideology isn't acceptable to me.

An outside speaker came and was viewed by our conservative population as liberal. There were politically charged comment made in conversations that followed

Calling someone a Libtard. Hate directed at the current President with no sensitivity to the other side.

Name calling

Groups of students called out loud the last name of the president in the halls disrupting classes.

The school atmosphere, from administration, is one of intolerance for "liberal" ideas, and staff and students have been targeted for so-called "liberal agendas". This has included posters that "might" offend "someone" and tee shirts depicting Obama.

This has happened in my classroom when discussing current events. Multiple students gave inflammatory remarks and were unwilling to see any other point of view than their own.

Students who identify as conservative have felt targeted in class. "Racist" is a word that has been used. Students who identify as liberal have been frustrated that we allow "Make America Great Again" hats.

Mostly verbal-put downs of students who were openly anti-Trump

As a result of our president's hateful rhetoric, whenever we discuss politics or current events as a class, the class becomes divided along party lines leading to conflict.

HAVE YOU SEEN OR HEARD ABOUT HARASSMENT, THREATS, SLURS OR NAME-CALLING BASED ON POLITICS IN YOUR SCHOOL THIS SCHOOL YEAR?

I have had to stop students from calling other kids “Fat, Dirty Jews”, “Hillary Lovers”, “Progressive Freaks” and “Fucking Liberals”.

Heated arguments about the racism of President Trump. Students wearing MAGA hats and other being offended. It has not escalated this year like it did in 2016.

The phrase “libtard” and “republican asshole” are used in class discussions.

Because our school is a private Jewish school, when one student said she was a Democrat, another student who’s a Republican told her that then she is anti-Israel.

There has been a lot of Trump talk and anti-immigration/”build a wall” type of conversation.

Political signs being removed from lawns and roadsides.

Very vocal anti-liberal, anti-BLM, anti-Me Too among students

Trumpism

Students praising Trump and thinking it’s okay to stop immigration. Racial slurs against Jews and LGBTQ

Extreme Anti-Trump rhetoric from both students and faculty.

Students who support President Trump were called hateful names.

Female students calling other female students have a pro-choice stance on abortion “whores” and “murderers”

Political jokes, and intolerance of others’ opinions is frequent

One of my students talked about Trump and MAGA. The other students engaged in a discussion which began to deteriorate into an argument.

People who support the president have

shouted things about immigrants, I have heard people talking about the wall

Students saying “Build a Wall” to Hispanic Students. Students talking about getting rid of immigrants in front of Hispanic students. People complaining about how immigrants get free hand outs.

Conflict over political differences and expressing those differences

There has been a lot of racial slurs used - wetbacks, towel heads, etc. Some students talk about “building a wall.”

A student make a comment about the wall keeping out the Mexican drug dealers and murders.

Trump vs. democratic rhetoric

Hateful language towards President Trump. “You’re not my President”; “You’re a ****head”; “a**hole”.

Brown-skinned students told to go back to their own country; referenced the Wall

A staff member told me they would not go out of their way to help a student because his political beliefs.

N word used more often, telling Latino students to go back to their country even if they’re US citizens, one kid wore a Lock Her Up T-shirt during the election of 2016, etc.

Arguments over standing for the flag at school or kneeling for anthem at sporting events.

One or two students can’t say the word “liberal” without using a descriptive word before it such as “dirty” or “stupid” “rotten” or similar.

Nothing too crucial, however, it is clear that the political discourse has trickled down to the children (students) of our biased adults,

We have had more fights between white students and students of color over racial slurs. I’m not sure of the exact language used because we are never told the details of these incidents.

HAVE YOU SEEN OR HEARD ABOUT HARASSMENT, THREATS, SLURS OR NAME-CALLING BASED ON POLITICS IN YOUR SCHOOL THIS SCHOOL YEAR?

Teachers have been called “radical liberals” by students and parents. Some students of color call teachers “racist”. Students call each other racists, and white students have even asked students of color to “go back home to Mexico” regardless of a student’s legal status.

Student council is almost exclusively late and just joking about doing a spirit week of trump Tuesday and build a wall Wednesday even knowing that two of their members in the majority of school are Hispanic students many with undocumented members

White students have yelled “Trump”, go back to your country or used the “N” word to non-white students.

Kids will ask questions and if they don’t like the answers I give (“fake news!”) they’ll go and complain.

Snowflakes, weak, crybabies

Liberals are usually bullied by conservative students

‘Build that wall.’

A student that supports Trump directed hate speech at a female African American student.

As soon as drumph pretended to be elected, our hateful students took that as permission to bully our LGBTQ population. This situation was taken care of by our teachers and administrators.

Some students continually using the phrase ‘build that wall’ whenever they hear others talking Spanish.

The level of civility in student language toward me as their teacher is very low this year.

Freedom of speech declared

Teacher directly accused another teacher of bias and anti-Christian/republican action due to running an anti-bullying campaign supported by Southern Poverty Law Center

In class, put downs for supporting Trump. Or, put downs because you didn’t support Trump. There have been both.

Sone kids get upset at others who wear MAGA hats or support Trump

Calling the president names

All republicans believe in slavery.

‘Build a wall!’ shouted at students, “Go back to your country” “All lives matter” etc.

Facebook flaming mostly, occasionally heated discussions at the site.

Students tease about the wall being built.

We are a predominantly Hispanic population and a small group of Caucasian students attempted to wear make America Great Again caps to school (Violates dress code) and it started a social media debate that was inappropriate.

Students calling specific political party followers names

Trump supporters bs non trump supporters

During student walkouts around gun violence, students who did not participate were told they wanted students to die, that they would probably die, and that they didn’t care about anything. It got ugly.

We have had several times that Dems and Rep get at each other.

Students writing #MAGA on Spanish teacher’s whiteboard; students yelling “Fuck Trump”

I’ve heard multiple people refer to feminists as “Feminazis” and liberals referred to as “Libtards”.

I had one student tell a Hispanic student ‘Adios’ right after Trump was elected. And these things happen frequently.

Calling Trump and his supporters mean, stupid and racist when kids were separated from their parents.

HAVE YOU SEEN OR HEARD ABOUT HARASSMENT, THREATS, SLURS OR NAME-CALLING BASED ON POLITICS IN YOUR SCHOOL THIS SCHOOL YEAR?

Students name calling Trump supporters

Conflict over students wearing Maga hats, students from immigrant families being told they are one of the “good” immigrants (implying other students are not good)

One incident of “f-ing liberals”; one incident of “with the wall maybe these spics will go back where they came from”. This is highly unusual in my experience here (23 years).

Students telling Hispanic/Latino students that there will be a wall for them. Black students being called the N-word.

I had to stop a class discussion in which 2 students began to insult each other because of different political views.

Any time “president” or “Trump” or any past president is mentioned, an argument between students is inevitable. Living in Texas, we have several students that are immigrants, and some have parents stuck on the other side of the border. For them, decisions made are very personal. Arguments are so heated, I’ve had to immediately stop any conversation about politics in my science classroom for fear of fights.

Just intolerance of different stand points. A lot of the use of “Liberal Snowflake”, “stupid Trump supporter” and more of that type of rhetoric. Staff members making other staff members feel uncomfortable because they support Trump.

In our school there is a new group that formed last year. They are far right and their president has written hateful things on her Twitter feed; “go back to where you came from”, “you don’t belong here”...

An increase in homophobic language. An increase in negative language, in the vein of Trump. More displays of T-shirts with Trumpist logos and language.

White students have become more vocal and bolder in the classroom about their opinions on immigration.

Members of the Young Republicans were trying to support a student-led protest and were told to go inside the building because Republican pigs were not wanted at their protest.

Lot’s anti-Trump sentiment. People who support Trump are degraded as stupid. When decisions are made people are VERY quick to call it racism.

“Pussy-assed liberals” - also some pretty strong gender bias due to the #MeToo movement- heard some of the young ladies involved referred to as “Feminazis”

Called a whiny liberal bitch

Students cannot express their support of the current president; offensive comments have been made

Bashing our President

While we have had this present person as President, some students feel emboldened to say racial slurs

Trump lover

Lots of anti-Trump sentiment (he’s the dumbest ever, thinks he’s king, etc.) I concur, BTW, but redirect students to state their opinions factually and back them up.

Students from various groups were involved in a verbal altercation regarding support for the president which was countered by anti-president remarks.

Students calling one another “stupid” simply because of their choice of political parties.

I’ve heard kids call each other names.

Damn illegal—build the wall

Just down one another for their politics

More between teachers, but this should not be happening in the workplace.

Many students have very strong opinions about the political nominees and those who

HAVE YOU SEEN OR HEARD ABOUT HARASSMENT, THREATS, SLURS OR NAME-CALLING BASED ON POLITICS IN YOUR SCHOOL THIS SCHOOL YEAR?

are currently in office. They can get in very heated discussions and are sometimes not very nice to those with differing opinions.

A 3rd grade student told a Latino student “trump will send you home”

Regular put-downs from Pro-Trump students and staff

I have heard students call President Trump racist, and saying he hates Mexicans and black people.

Teachers making snide comments about religion or politics and other teachers not feeling comfortable to express their views because they are not popular.

Students become very heated in certain discussions about Trump and his policies, especially since many of my students are immigrants or children of immigrants. This does allow for discourse in the classroom though of the appropriate way to handle these conversations.

Between big, bully types towards weak or different students. Harassment and making fun of them.

Some teachers have used the opportunity to classify groups based on dangers and divisive rhetoric from some Republicans. These teachers have made it clear they support this rhetoric and all it includes by stating such to their classes of students.

Students are vocal about their like or dislike of the current US Pres. but they don't really know much about current events etc.

Again, Trump supporters believing they can say whatever they want because our president does the same thing.

Pro Trump students using abusive language against teachers.

The well-off students are mostly republican, and the poor are mostly liberal and clearly do not support any agendas set forth by the current administration.

Hate Trump talk

Snowflakes and rethuglicans

Student political discourse reflects much of what is found online- very divisive, often not founded in fact

Mostly ‘fuck the system’ language

Severe hatred and dislike for D. Trump

Students who support the current administration are afraid to speak up because they are a very small number of students.

There has been a significant rise in mocking of Democrats and liberals more generally.

We had a student that supported Trump. He also happened to be white, one of the few in the school. He tended to take controversial stances, especially about the football players taking a knee, immigration, and terrorism. While the discussions became heated, they never evolved into anything violent, but the language and rhetoric were very negative and insulting at times from both sides.

Students unfamiliar with some of the language associated with differing political ideologies have used terms to refer to students or groups in our school. For example, I have heard students use terms such as “fascist”, “white supremacist”, “illuminati”, “communist”, and “faggot” in ad hoc disparaging ways to show that they do not agree with the targeted students.

Name calling and minor cyberbullying

One social studies teacher has had students complain of his perceived bias when he gives historical reasons for past action, and the implications for today's political climate. It seems that certain buzz words cause people to quit thinking and begin emoting. Whenever he has met with parents, they understand why he includes the topics in his teaching.

General slurs.

Negative comments about Trump (and probably other public figures).

**HAVE YOU SEEN OR HEARD ABOUT HARASSMENT, THREATS, SLURS OR NAME-CALLING
BASED ON POLITICS IN YOUR SCHOOL THIS SCHOOL YEAR?**

Name calling

There has been a backlash against Trump- stupid, can't lead, etc.

Students fights over views

Students caught up in political rhetoric of the community, threatening walls, cages, deportation

There has been name-calling against political conservatives, especially those who are perceived to be supporters of ANYTHING Trump does in his administration. People are being called racist if they are in favor of ANYTHING Trump does. We have seen major polarization, based largely on immigration policy.

Student called another student a "libtard."
Student called another student a "racist

Our Hispanic students have been the target of slurs or comments instigated by Trump politics

Republican."

Students shouting "build the wall" in the hallway between classes

"lib-tard" "gay" "faggot"

Slurs to vocal opinions

While learning about balance of power students had to research either a senator or representative candidate depending on state they were from. One 4th grader had chosen democrat candidate. Went home and talked to granddad. Came back and wrote Liar and she hates us all over her poster.

Students will make comments about building the wall. During a lockdown drill, one student stood up and shouted 'ALLAH' and discussed how trump was going to keep the terrorists out.

Students, staff, and parents have been overheard mocking certain political figures, situations, and choices by others.

Pro Trump language Anti Trump language

Build a wall and anti-Semitic remarks.

General chiding over political affiliation

Once incident occurred at the elementary school. A student told another that he was "going to be sent back to Mexico because Trump is president."

We have a small but vocal number of Trump supporters who say their classmates have made them uncomfortable or unwelcome by sharing their support for Trump and the GOP.

"Go back to Mexico" "build the wall" chants

In class discussions students take sides very quickly and refuse to listen to people's views, they are more likely to shout down or openly diss an opinion they don't agree with. They are more likely to say negative things about the person rather than argue about the ideas. These are general behaviors no single incidents.

Students using foul language

Students and many parents tend to be very conservative in terms of political ideology. Students often display blind loyalty to the point of deliberate ignorance of any other political perspectives.

Students have been overheard arguing about the President of the United States and comments and statements he made and posted and how they are inappropriate and not representative of their own thoughts, behaviors, and background.

Build the wall chants as a joke....not to Mexican students...we have none

Students telling others Trump will build a wall.

Kids talking about go back to your country we are going to build a wall to keep you out speak English

Teachers downgrading students if they support President Trump.

Comments like "build the wall", "This is America", etc.

HAVE YOU SEEN OR HEARD ABOUT HARASSMENT, THREATS, SLURS OR NAME-CALLING BASED ON POLITICS IN YOUR SCHOOL THIS SCHOOL YEAR?

Despite our work with Civil Discourse, many students boo and say things like, "Trump sucks!" when the president is mentioned. Students sometimes disparage immigrants as well. The term "illegal" immigrant is sometimes used.

Board members; county city officials; politically heated meetings over school facilities, student assignment, race and charter school vs. traditional public schools district. 'Us vs. them' agendas. Name-calling. Racists, white supremacists, republicans for segregated schools. Legislation passed for municipal charter schools. Political agendas and party affiliated agendas. Social media comments and news articles. Colleagues calling republicans idiots and sent group text messages not to vote for certain bills on the ballot in Nov. 2018. Comments about Republicans in general and how they are ruining the country while at work without regard to others' political views.

One underclassman is vocally anti-Trump and can make inappropriate comments about Trump that upsets some of the more conservative Trump supporters. As a result, some of the students that are Trump supporters have taken to bullying the anti-trump student (mostly name-calling with words like "freshman" and "stupid" and/or telling him to shut up). In Race & Cultures class, we were analyzing political cartoons and one featured Colin Kaepernick. One student was so 'triggered' by Colin's choice of protest that it was impossible to have a civil discussion about patriotism, freedom of speech, black lives matter, and the reasons Colin was protesting. The conservative student shouted down anyone who agreed with Colin's actions, got extremely angry and passionate about 'patriotism'. As the educator I made the decision to change to a different topic in order to help calm down the class and regroup my own methods of how to handle the topic.

Students saying hateful things to each other related to politics, particularly regarding Donald Trump.

Snowflakes Trump-hater

Overall, the school is very liberal and students who are religious or republican will often feel uncomfortable to speak in class discussions. Also, students

are very uncomfortable with the idea of talking to people who identify as republican, mostly this arises from past trauma in schools and families where they have faces harassment from republican identifies and have been in the minority. They have come to this school, where they are the political majority and now harass and bully republicans.

Politically charged discussions around beliefs have caused students to verbally argue and increased tension and anxiety.

We live in South Florida. I have a number of students whose family members are "illegals." As you can imagine, there is a great deal of fear due to the political environment. We often discuss the derogatory names my students experience. Every one of them has faced racism at one point in their life.

Students tell other students they will be deported, and they argue over politics...when there was very little interest in it in the past.

Name calling; slamming others' beliefs & ideas

Trump supporters are called racists. Trump detractors are called snowflakes

Every single day they talk about Trump, how he is racist, and other students call other students racist for no good reason based on the whole Trump thing.

Middle school aged students will frequently bandy Obama's name around as a pejorative. A Black student once said his father was picking him up from school; students asked if it was Obama and the joke continued for some time. He stated he did not mind the joke because it would be awesome if Obama was his father but the tone it strikes with other students was not one of "awesomeness." It is a term of sensitivity they utilized without understanding its consequences.

Before the election some students (including some of the confederate flag hat wearing ones) told kids in mock elections to not just vote for whomever Trump says to vote for. Separately, some students call other students (accurately or not) Mexican as an attempt to insult them.

**HAVE YOU SEEN OR HEARD ABOUT HARASSMENT, THREATS, SLURS OR NAME-CALLING
BASED ON POLITICS IN YOUR SCHOOL THIS SCHOOL YEAR?**

It is hard to help students look at politics (We watch CNN 10 most days) Students have strong opinions against Trump but get caught up in that instead of the story being reported.

A small group of parents/students have vocalized that we 'brainwash' students to be 'racist against white people.' Also, a small group of parents have asked that we stick to 'regular' curriculum (reading, writing, math..., traditional academics.)

The school is very divided. The Trump supporters are really aggressive in their views.

Name-calling between students based on nascent political views

The incidents are not about slurs or hate. The incidents, political arguments between students, involve students yelling their points of view - both liberal and conservative - using language that is school appropriate, but in which students are staunch ideologues, unwilling to hear what the other side is saying or to want to find a compromise.

Students have accused one another of being unpatriotic because they do or do not support the president and his policies. Some students have supported their claim of non-patriotism by using the president's own words. 'They president has said/done it. So can I.'

Trash talking about Trump lead to racist comments.

Many times, students talk derogatively about President Trump. I spend most of my time with 6-8 year-olds who use words like 'stupid' and 'dumb' to describe Trump or those who support him.

Staff & students have made disparaging comments to conservative students/staff.

More from the parents than students; Rhetoric against libtards, feminazis, and tree huggers.

Arguments over choices of political candidate
